TMCR

Today's More Choice Radio

Introduction Titles 1—As part of the introduction to the video, I will explain the location of the Video shoot.

TMCR is a local community radio station in Thorne, where I am an active volunteer.

95.3FM for NE Doncaster
Streaming online to the World

Introduction Titles 2—This element explains the way in which TMCR broadcasts to its listeners. FM for the local community which is generally within a 6 kilometre range (or further where geographics allow), and for those further afield, there is an option to listen online.

The Bridge Centre
Bridge Street
Thorne

Introduction Titles 3—This gives the location of the TMCR studio, which is located within the market town of Thorne in South Yorkshire.

The Bridge Centre houses TMCR, together with other community partners within the area. St Leger Homes, Thorne and Moorends Regeneration Partnership, and Re-Furnish Thorne

Shot 4—This is a pan and zoom shot taken outside the studio. It features the local community in the background, before panning slightly right and zooming into the large promotional sign attached to the side of the studio. I will use this to demonstrate the link between the listeners and TMCR

Shot 5—This shot will take a journey from the front door, along the corridor to the Office and the Studio. It will slow slightly at the office door, before continuing along the presenter gallery of photographs, finishing with my photograph at the end of the take.

Shot 6—This is a hold shot on my photograph, to re-emphasise my role within the radio station.

Jools Oughtibridge

Storyboard

Shot 7— Having zoomed out slightly to show my photograph and the studio door, the camera will pan right from my photograph, to then zoom into the sign on the studio door.

Shot 8 - Title—This is to introduce my breakfast show on the radio station, which is taking place during the filming of the video

Shot 9—This is a atmospheric shot to show the studio. Shown here are the gold discs, and also the CD rack, where there are thousands of songs that are not listed on the playout computer system

Shot 10—This is a atmospheric shot to show the studio. Shown here are more gold discs, and also the studio door.

Shot 11—This is a pan shot from left to right, showing the mixer desk and computer screens, from where I broadcast to around 40000 people per show. It is taken from the aspect of the presenter chair.

Shot 12—This is a pan shot from right to left from the CD corner around to the mixer desk, where I am preparing to introduce a song once the one currently playing has ended.

Shot 13—Title—This is a title to show the ways in which the listeners can interact with me at the radio station, via Telephone, Text or Email

Shot 14—This is a shot of my introducing the next song to be played. It starts with me talking, and it pans around from left to right to show the mixing desk and computer, and then pans from right to left to completion.
